## **ONLY UNUSUAL FEATURE**

New York, Aug. 30.—An advance of 2½ points in American Tobacco was the only unusual feature at the steady but duit opening of today's stock market. A number of important issues, including United States Steel and transcontinental rails, sold minus their quarterly dividends, but initial changes in those groups were confined to the smallest fractions. Equipments shippings, coppers and other metals were disposed to harden, but specialties, such as Maxwell Motors, lost a point. Liberty issues and international bonds were variable.

Complete recoverios were made during the listless midsession by United States Steel, Canadian Pacific and minor rails. Dealings in other quarters of the stock list were negligible, but foreign bends continued to harden on the further rise of Faris exchange.

Short covering in steels, shippings and other favorites caused a further hardening of priors in the last hour. The closing was firm.

Chicago, Aug. 36.—Locals say corn has commenced to develop resistance, but may prove a bulge sale once again before bottom has been reached. The approach of a Sunday and Monday holiday may be a factor. No. 5 corn at \$1.48 is on a delivery basis. Talk of heavy oats deliveries next Tuesday had some effect. Frimary corn receipts have risen to \$80,000 per day, and suggests liberal amounts on farms. Cash oats are in a full delivery basis.

STOCKS.

New York, Aug. 39.—All the signs point to a dull market for some days, but I do not see that the warning of the money committee is bearish. It is plain that it is given for fear that good news such as we are getting from the battlefront and in railroad earning and plans for the revenue measure might induce a great speculation which would be very undestrable at this time. The market v. strong and still not extravagantly active. In fact, a good stable market primarily based on investment buying will greatly aid the new loan campaign. A good rule will be to keep to the constructive side and gradually reduce commitments.

NEW ORLEANS COTTON.

New Orleans, Aug. 30.—Heavy liquidation was felt by cotton today and the market lost 53655 points under it in the early trading. The selling out among longs was due chiefly to the triple holidays following the close this evening, with the bureau report on condition coming immediately after the holidays.

After the initial decline the tendency was to recover in a moderate way. At noon the trading menths were 18620 points under the final prices of yesterday.

Liquidation continued and at 1 o'clock prices were 30810 points down, net.

**WAR BREAD" GIVES** WAY TO "VICTORY BREAD"

Fifty Per Cent. Substitute Gives Place to Twenty Per Cent. Basis.

Orders have been recently sent out by Food Administrator Herbert Hoov-er lifting to a great extent the restric-tions placed on the consumption of whent flour. Now only twenty per cent of other cereals have to be used with flour instead of the fifty per cent. basis formerly adopted.

These orders are to become effective on Sept. 1, and at the same time all rationing of bread among the entente nations is to be discontinued. General plans have been made to manufacture flour in the future with twenty percent, of other cereals and the bread therefrom is to be called "victory bread". The manufacturers will be required to state the different percentages of other cereals used and list those on the sack.

Baking regulations which conflict

Haking regulations which conflict with this new order are rescinded by the food administrator.
